

# NBK

CORPORATE PROFILE

NBK CORPORATION

# BUSINESS

NBK has specialized in food and commodity exports since its establishment in 1890. NBK now focuses on distributing automobiles, machines and generators as well as implementing international development projects such as in the Pacific Islands, Asia, Caribbean and Africa.

## FOOD AND COMMODITY

We have exported Japanese food overseas for over a century. Food exports are at the core of our business and have been since NBK's establishment. Our vast product portfolio is wider than Japanese food. We also exports machinery and electrical equipment. Serving as an export sales agent to the Pacific region, NBK is striving to enhance our service, as well as improve quality and expand our sales.

## AUTOMOBILE

We have started business as an official exporting dealer of Japanese automobile manufacturers 50 years ago. Throughout our business, we not only aim to enhance the value of automobile manufactures but also grow close together with the Pacific Islands. Our business is currently expanding from the Pacific Islands to the Asian regions.

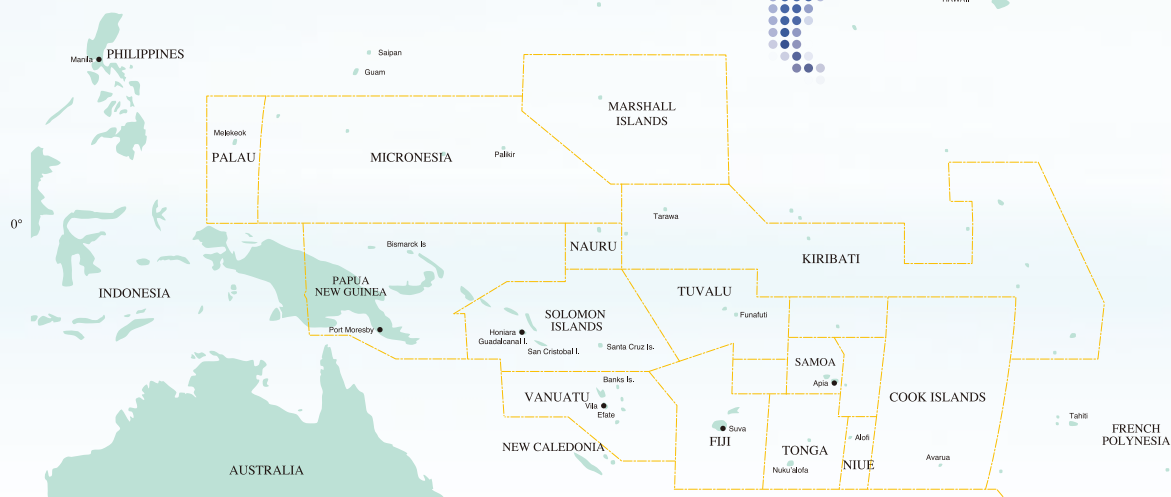

# GLOBAL PROJECT

We lead on Official Development Assistance (ODA) projects. This includes working from the initial stage of project design, to coordination on to implementation and providing technical supports after completion.

We also supply a variety of consumer goods and industrial products upon requests from local governments as well as customers.

Our business aims to play an integral part in promoting social and economic development all over the world.
